## Above Ground Pool Closing Service Information

### PRE-CLOSING REQUIREMENTS

1. Balance the pool water. We recommend you bring a sample to the store a day or two in advance of us closing your pool. This is very important to ensure the water chemistry is correct.
2. The pool must be fairly clean when arrive. We include a few minutes of dipping leaves/debris, however, if the pool needs more cleaning/vacuuming, add \$75-\$100 depending on the time it takes.
3. Set out the pool cover, water bags, winter plugs, etc. for us to easily access them.

### WHAT'S INCLUDED

- We winterize the filter, pump, and the pool plumbing.
- We remove the skimmer basket(s), ladder(s), step(s).
- We install the pool cover.

### ADDITIONAL RECOMMENDATIONS

We recommend winter shock and algaecide and will add it at an additional cost, based on pool size.

### POST-CLOSING RECOMMENDATIONS

#### *Solid/Waterbag Covers:*

Due to water and leaves collecting on top of the cover, you should periodically dip the leaves off and pump the excess water off the cover with a cover pump. We sell these pumps in our store.

If you close your pool before October and plan to leave it closed until May, it is advisable to add Liquid Shock and Winter Algaecide once around Christmas. This will help to keep algae from growing. Pull the cover back on the corner of the deep end and pour the chemicals into the pool. Immediately brush the bottom of the pool a few times. This will help distribute the chemicals through the water.

Filter: \_\_\_\_\_

Heater: \_\_\_\_\_

Gallons/Pool Size: \_\_\_\_\_

**Pool Closing Services (Please select all that are requested) (Contact us for current pricing):**

<input type="checkbox"/> Above Ground Pool Closing (no deck)	\$ (plus chemicals)
<input type="checkbox"/> Above Ground Pool Closing (full deck, all the way around)	\$ (plus chemicals)
<input type="checkbox"/> Above Ground Pool Closing (partial deck)	\$ (plus chemicals)
<input type="checkbox"/> Winterize Equipment Only (No Cover)	\$ (plus chemicals)
<input type="checkbox"/> Sand Filter Clean	\$25
<input type="checkbox"/> Cartridge/D.E. Filter Clean (D.E. powder/filter parts not included)	\$75 (plus D.E. powder/filter)
<input type="checkbox"/> HIGHLY RECOMMENDED: Phosphates/Organics Remover	\$30 (up to 13,000 gallons)
<input type="checkbox"/> Winter Treatments	\$55 (plus chemicals)

**Desired Closing Week:** \_\_\_\_\_ **(a technician will call you to schedule)**

- The pool cover, winter plugs, water bags, cable & winch must be poolside prior to our arrival. If any of these items are needed and not available, they will be provided for you at an additional charge. Initial: \_\_\_\_\_
- Water bag covers: If any water bags are damaged and need replacing, or if there are not enough water bags, these will be provided at an additional charge. Initial: \_\_\_\_\_
- Please inspect your pool cover prior to closing. Rivers Pools is not responsible for the condition of your pool cover at the time of closing. Initial: \_\_\_\_\_
- If the chlorine level is low at the time of closing or if pool is green, extra shock and/or algaecide will be added at an additional charge. Initial: \_\_\_\_\_
- If you have a wood or concrete deck partially around the pool, there may be an extra charge (up to \$30) to mount transitional anchors for the cable. This is so the cable can transition from the deck to the top rail of the pool securely. Initial: \_\_\_\_\_
- While we strive to ensure that your pool cover stays on throughout the winter, we cannot be responsible for high winds blowing the cover loose. Should your cover come loose within 1 week of us installing it, we will come back free of charge to re-install it. After this 1 week period, there will be an additional charge to come back and re-install the cover. (Ask us about purchasing clips to secure the cover to the top rail. This gives added protection from wind and other factors.) Initial: \_\_\_\_\_
